

A Whole New RELM of Possibilities

## Letter From President & CEO, David P. Storey

Dear Valued Customer,

I would like to take a moment to share **RELM's strategic direction** regarding the **introduction of the new KNG series** and the **continued production** and **support of RELM's 'D' series**, which includes the DPH Portable and the DMH Mobile.

**RELM will continue to manufacture and support the 'D' series as long as there is demand for the product and our customers require them!**

In the past, our competitors have often discontinued products abruptly, leaving the customer 'hanging' with no immediate and viable communication alternatives. **This is not the RELM Way!** **Our company mission** is to be **the most responsive** to customer needs and to continue to be **the easiest company in the industry to work with.**

Our objectives are simple, yet ambitious:

- **Target** of zero defects!
- A mandate to **listen** to the customer better than the competition!
- A passion to **respond** to the customers' requirements as fast as possible!
- A desire to **provide** the BEST value at the FAIREST price!

These are exciting times for RELM as we plan to deliver **16 new products** in the **VHF, UHF and 700 / 800 frequencies** through 2008 and 2009.

**Offering the KNG series and the D series together will provide our customers with a wide array of solutions to satisfy their needs!** This is my commitment as President and C.E.O. and RELM's commitment to its customers.

Thank you for your continued support of RELM Wireless!

Best Wishes,

**David P. Storey**  
**President/C.E.O.**
