## **RELM Wireless Receives FCC Authorization For Its P25 800 MHz KNG Portable Radio**

**WEST MELBOURNE, FL, August 30, 2011** – RELM Wireless Corporation (NYSE: AMEX - RWC) announced today that its P25 digital portable radio, the KNG P800, has received equipment authorization from the Federal Communications Commission (FCC) for use in the United States. The KNG P800 provides interoperability under the Project 25 standard (P25) established by the Association of Public-Safety Communications Officials - International (APCO).

The KNG P800 operates in the 800MHz frequency band. It joins RELM's other KNG portable and mobile models in addressing the requirements of government and public safety professionals, and incorporates the same impressive array of features offered in our entire KNG line.

RELM President and CEO David Storey commented, "The authorization of the KNG P800 by the FCC is an important achievement for RELM; enabling us to compete for state and municipal opportunities and customers that previously were outside the scope of our product line. Offering the same extensive feature-set, world-class performance and value as our other KNG products, we believe prospective customers will be impressed with the KNG P800."

### **About APCO Project 25 (P25)**

APCO Project 25 (P25), which requires interoperability among compliant equipment regardless of the manufacturer, was established by the Association of Public-Safety Communications Officials and is approved by the U.S. Department of Homeland Security. The shift toward interoperability gained momentum as a result of significant communications failures during emergency events. RELM was one of the earliest manufacturers of P25-compliant products, and today remains a staunch supporter of the P25 standard.

### **About RELM Wireless Corporation**

As an **American Manufacturer** for more than 60 years, RELM Wireless Corporation has produced high-specification two-way communications equipment of unsurpassed reliability and value for use by public safety professionals and government agencies, as well as radios for use in a wide range of commercial and industrial applications. The Company's common stock trades on the NYSE Amex market under the symbol "RWC".

*This press release contains certain forward-looking statements that are made pursuant to the "Safe Harbor" provisions of the Private Securities Litigation Reform Act Of 1995. These forward-looking statements concern the Company's operations, economic performance and financial condition and are based largely on the Company's beliefs and expectations. These statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors and risks include, among others, the following: risks relating to uncertain economic conditions in the United States; reliance on contract manufacturers; heavy reliance on sales to the U.S. Government; federal, state and local budget deficits and spending limitations; limitations in available radio spectrum for use by land mobile radios; general economic and business conditions; changes in customer preferences; competition; changes in technology; changes in business strategy; the debt and inventory levels of the Company; quality of management, business abilities and judgment of the Company's personnel; and the availability, terms and deployment of capital. Certain of these factors and risks, as well as other risks and uncertainties, are stated in more detail in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010 and in the Company's subsequent filings with the SEC. These forward-looking statements are made as of the date of this press release, and the Company assumes no obligation to update the forward-looking statements or to update the reasons why actual results could differ from those projected in the forward-looking statements.*
